CRAZY FOR THE AGAVE

TASTING LOCO TEQUILA

Based in Sausalito and born in Jalisco, Loco Tequila's co-founders Gabriel Roqueni and Pedro Padilla went from chasing high-tech success to distilling a dream. Diligently researching centuries-old methods for transforming the blue agave plant into Mexico's signature spirit, aged in old and new barrels, the resulting collection will make the most of your precious bar space. The team's agave expert, Jose Antonio Sanchez Lopez, ensures the succulent harvest meets the needs of the company's excellent tequilas. Now available in the American market, the three chief varieties are all enticing. The Loco Blanco is the epitome of a fine white tequila, smooth and flavorful. The elegant Loco Puro Corazon is perfect to sip and savor. Those who prefer a little Añejo in their tequila glass should give the Loco Ámbar a shot. Handcrafted in small batches, Loco sticks to the artisanal methods that craft a uniquely distinguished set of spirits. And together, the bottles and packaging by Mexican-Dutch artist Jan Hendrix create a joy for the senses that lasts long after you've enjoyed your drams.

SOUNDING OFF

THE ZEPPELIN MCLAREN EDITION SPEAKER

We all want our music to sound as perfect as possible. But what happens when your acoustic setup is also an art piece? The Zeppelin McLaren Edition Speaker combines cutting-edge audio tech with a supercar design aesthetic that will serve as elite décor in your entertainment center. Shaped like the airships that dominated skies in the early 20th century, the eye-catching orange finish perfectly pairs with McLaren's top-tier sound. And lest you think it's not up to the job of rocking your world, this device is packed with a whopping 240 watts of amplification. Sound never looked so good!
